Your peace of mind matters, choose Home Safe S2 30P.

Let innovation upgrade your safe too. Gone are the days when keeping your valuables at home was a risky affair. The Home Safe S2 30P has been designed with your home in mind. Choose from a variety of sizes and security options to keep your valuables out of harm's way, be it fire or burglars.

With the Home Safe S2 30P, we have decided to let you choose what works best for your home, while making sure that your belongings are safe. The safe itself will let you rest easy, offering you a 30-minute fire resistance and burglary protection, also certified to the European standards.

But that's not all! The "V" bolt system that secures the door and the fire resistance material have been specially designed and offer the latest in security technology.

Insurance Rating

Insurance ratings for security safes can seem quite complicated, but in reality they are quite easily explained:

Safes are not all the same, and some safes are stronger than others. Manufacturers and testing house assess safes using expert locksmiths and all manner of tools, up to-and-including explosives and gas cutting equipment. Following testing, safes are given a rating which represents how long they are able to resist forced or surreptitious entry, and consequently how secure they are.

In the UK this rating is usually expressed as a figure in pounds sterling, and this is called a 'Cash Rating'. A Cash Rating is the level of cover that an insurance underwriter will give to the contents of the safe and can generally be multiplied by a factor of 10X for your valuables.

Independently tested and certified by ECBS to EN14450, Class S2 which is £4,000 Cash or £40,000 Valuables and independently tested and certified by ECBS to EN15659 which is up to 30 minutes fire protection.

It should be noted that ratings differ from Insurer to Insurer and your own circumstances can also influence this rating. In many cases the cash rating is only relevant for the purpose of distinguishing between models of safe in order to make a more informed purchase. If a specific cash rating has been specified by your insurer you should always check that they agree with the rating on this page before purchasing a safe.
